EDUCATION

Department of Computer Science, University of Delhi— M.Sc. Computer Science

JULY 2019 - MAY 2021

Computer Science – Machine Learning and Information Security.
CGPA: NA

Ramanujan College, Kalkaji, New Delhi — B.Sc. (H) Computer Science

July 2016 - MAY 2019

Computer Science – Data Structure and Algorithms.
CGPA: 7.484

PROJECTS

IOT USING RASPBERRY PI

March 2020 - April 2020

Using a Raspberry Pi computer and a DHT sensor, Developed an electronic device that streams temperature and humidity data over the internet. And programmed the system in such a way that says whenever the temperature exceeds a certain limit, the device will automatically send an email notification!

IoT – Concepts & Applications
Raspberry Pi development platform
Data analysis with cloud platform

HANDWRITTEN DIGIT RECOGNITION USING ML

September 2019 - October 2019

This project was my first application towards using machine learning in computer vision.

Deep Learning
Neural Networks
Tensorflow & Keras Libraries

SKILLS

C++, Java, PHP

Analytics, Data Visualization

Communication and
collaboration tools (Slack,
Skype, etc.), Social Media

Marketing Automation

Operating System(windows
and mac os),

Office suites(Microsoft office,
G suite)

Spreadsheets(excel,google
sheets etc.)

Presentation
software(powerpoint,
keynote)

Email Communication

AWARDS

5 Star Coder at HackerRank
Platform.

Participated at Zoo Hackathon
2019.

LANGUAGES

English, Hindi.
